# AEM Final Task Overview

Task 1: Header Setup

1. Navigate to AEM > Sites > Your Project

2. Open the Home Page in Preview or View as Published

3. Confirm the Header is visible across all pages

4. Click on News and check if the Dropdown Menu functions properly

5. Verify that all links redirect to the correct destinations

Task 2: Footer Setup

Ensure the Footer is implemented and appears uniformly across all site pages.

Task 3: Building the Home Page in AEM

1. Create the Home Page at /content/newsroom/home

2. Use the OOTB Content Page Template

3. Apply OOTB Header and Footer

4. Add a Teaser Component highlighting an Award Ceremony

5. Include a CTA linking to /content/newsroom/awards

   - 'Read More' for detailed content

   - 'Get Tickets' to redirect to the Contact Page

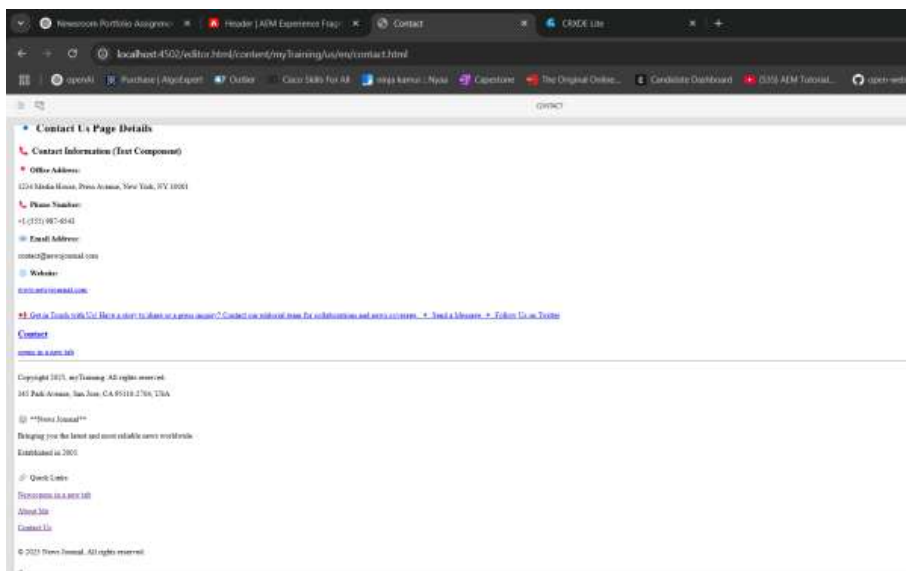

Task 4: Building the News Page

1. Create the News Page at /content/newsroom/news

2. Develop a NewsRoom Component to list news entries

3. Create individual article pages under /content/newsroom/news

4. Ensure each News Card shows:

   - Title

   - Image

   - Short Description

   - Clickable link to full article

AEM Final Task Overview

Task 5: Creating the Contact Me Page

Design a contact page including the journalist's contact info and social media links.

Task 6: Creating the About Me Page

1. Go to AEM > Sites

2. Navigate to /content/newsroom

3. Create a new page using the OOTB Content Page Template

4. Name the page About Me (/content/newsroom/about-me)

5. Click Create & Open

Task 7: Verifying News Article Pages

1. Navigate to /content/newsroom/news

2. Check for articles like /article-1, /article-2, etc.

3. If not found, create using the Content Page (OOTB Template)

4. Confirm the NewsRoom Component properly displays them on the News Page
